Primary Examiner, Art Unit 3634

Art Unit: 3634

1. The following is an examiner's statement of reasons for allowance:

The primary reason for allowance of independent claim 1 is the recitation setting forth the flexible door as being in contact with the wall above the bay to form a seal between the wall and the flexible door and the flexible door is supported against the bottom edge of the second door in order to maintain the contact and seal. While the references to Ruffner and Stroup et al disclose each of the claimed structural limitations it is not clear that the claimed function of the flexible door as being in contact with the wall above the bay to form a seal between the wall and the flexible door and the flexible door is supported against the bottom edge of the second door in order to maintain the contact and seal is present. Similarly, independent claims 14 and 15 recite limitations of a scope which reflect that of claim 1 as noted above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Inasmuch as generic claims have been allowed the restriction requirement, as set forth in the Office action mailed on September 18, 2007, is hereby withdrawn. In view of the withdrawal of the restriction requirement, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the

provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.
